FYI – from Lora Werner (ATSDR).

On the WV chemical spill.

Hi, **Ex. 4 - CBI**

There aren't any agency factsheets yet that I am aware of.

Here is a one pager from the Poison Control Center that we found very helpful that is ok for you to distribute; that in addition to the MSDS is it for the summary public info on the chemical at this time. The National Library of Medicine/NIH folks are working on a public peer-reviewed HSDB data file that will be accessible on the Internet hopefully by the end of this week.

Happy New Year Region 3 ATSDR'ians!

I have been asked if there is any information on the chemical spilled in West Virginia (4-methylcyclohexane methanol (MCHM)).

Is there a fact sheet associated with this incident that I can share with the RRT?

Thanks in advance. Hope you are well rested from the holidays.

Debbie
